Eweniyi Oloruntoba Martins – Full Stack Developer

oloruntobaeweniyi@gmail.com I LinkedIn I +44 737 7503 960

Summary

I am a Fullstack Software Developer with over **5+** years of demonstrated experience in delivering successful technology solutions across multiple industries. I possess a solid track record in developing contemporary web applications and effectively leveraging API integrations. Furthermore, I am a dedicated leader and team collaborator, consistently ensuring the prompt and accurate completion of projects.

Career highlights:

- Led and managed a team of six (6) in the setup and development of critical internal tools and solutions, resulting in increased efficiency, productivity, and cost savings for BesaCare.
- Collaborated with a team of seven (7) at PETRA Trust Company Limited in the design, development, and deployment of frontend and backend services (APIs) to redesign the main ERP system with Ruby on Rails, REST API, GraphQL, and PostgreSQL, generating $22.3 million per year from 223K+ customers.
- Domain Knowledge: E-Commerce, Health, Media and Publishing, Telecommunication, E-Learning.

Programming Skills

- **Languages:**
    - JavaScript (React js Express, Node js, Vue)
    - Typescript
    - Ruby (Ruby on rails)

- **Tools:** MongoDB, Git, VS Code, GraphQL, Appollo Client

Professional Experience

- **UNIVERSITY OF LIVERPOOL**
  Digital Coach   United Kingdom (Nov 2023 – Aug 2024)

    - Optimized digital systems through comprehensive assessments, improving efficiency and functionality.
    - Led workshops and training sessions to enhance staff and student proficiency in digital tools and systems.
    - Fostered collaboration across departments, leveraging feedback to drive continuous improvement initiatives and achieve cost-effective solutions.

- **BESACARE**
  Software Engineer   Ghana (Sept 2022 – June 2023)

    - BesaCare App: Designed and developed a highly responsive marketing website for besaCare app, a healthcare application that enables individuals to schedule in-person medical appointments using React, CSS, and Bootstrap.

- Successfully led and managed a team of six (6) in the setup and development of critical internal tools and solutions utilizing React, Typescript, React Context, GraphQL, and Apollo client technologies.
- Offered high-level technical support to customers in collaboration with engineers to enable seamless navigation and use of the application by diagnosing and resolving complex issues faced by customers.

- **PIGGYVEST**
  Software Engineer   United Kingdom/Nigeria (Jan 2019 – June 2023)

  - Engineered and deployed sophisticated email services within the event data system, ensuring seamless integration and functionality by meticulously addressing all project requirements and feedback.
  - Developed and maintained front-end functionalities of the company's website, specializing in UI/UX design and web development with a focus on HTML, CSS, and JavaScript to enhance user experience and interface efficiency.
  - Created prototypes for applications and websites, ensuring efficient and effective design implementations that meet both user needs and technical specifications.
  - Proficiently managed database systems, optimizing data storage solutions to improve application performance and reliability.
  - Collaborated with cross-functional teams to write cross-browser compliant code, ensuring consistency and compatibility across various platforms and devices, while mentoring junior developers and driving project success.

- **PETRA Trust Company Limited**
  Software Engineer   Ghana (Feb 2021 - Sept 2022)

  - Collaborated with a team of 7 in the design, development, and deployment of frontend and backend services (APIs) to redesign the main ERP system with Ruby on Rails, REST API, GraphQL, and PostgreSQL, generating $22.3 million per year from 223K+ customers.
  - Developed live reporting and visibility on GraphQL schema in PDF and CSV formats for C-level executives using Microsoft Graph API and OAuth authentication to restrict access privileges
  - Carried out and translated business requirements into Web and Mobile applications.

Skills

- UI/UX Design
- Database Management
- Prototype Development
- Cross-Browser Compatibility
- Team Collaboration and Mentorship

Education

- University of Liverpool (United Kingdom) – In view   (Sept 2023 – Sept 2024)
  - MSc Computer Science

- Kwame Nkrumah University of Science and Technology   (Sept 2019 – Dec 2022)
  - BSc Information Technology (Network Systems)
